Fessy-Con Proposal

I am Kai McCallum and for the 2022 Fessy-Con I want to make an I-movie trailer where I will highlight all the action in my story, *Grasshopper Jungle*. For this project I will be going solo because I am the only one in this class that is reading my story. I will film the trailer both outside of school and inside. I will film on an Ipad and an Iphone.

A lesson that the viewers can relate to would be that when the main character is making his friends mad and not fitting in. I think a lot of people at Fessy-Con can relate to this because a lot of the new students may have not fit in at first. Also, we all make friends mad at some point so that is another thing people can relate to.

I think my Idea should be submitted into Fessy-con because it would be really fun to make and a challenging project. Also, I think I would blow the other contestants out of the water.
